RE: In the Matter of
Request for Review by the Houston Independent School District of the
Decision of Universal Service Administrator,
CC Docket No. 02-6
BEN: 141223
Funding Year: 2005
Form 471 Application Number: 441116
FRN: 1224875, 1224877, 1224882, 1224884, 1224886, 1224895, 1224900,
1224906, 1124914
Pre-discount Amount: \$4,309,032.84 (total for 9 FRNs)
Amount of Funding Request: \$3,619,587.60 (total for 9 FRNs)
Funding Commitment Decision: Not Funded

Dear Ms. Dortch:

Pursuant to 47 C.F.R. § 54.719 (2004), Houston Independent School District ("HISD") hereby appeals the Universal Service Administrative Company ("USAC") Schools and Libraries Division's ("SLD") initial decision to deny Year 2005 funding for HISD's 471 Application 441116 ("Year 2005 Application") (Attachment 1), and the subsequent decision to deny the appeal submitted to the SLD by HISD.

The project at issue in HISD's Year 2005 Application is a continuation of the project approved by the Federal Communications Commission ("Commission") in *In the Matter of Request for Review of the Decision of the Universal Service Administrator by Houston Independent School District*, File No. SLD-398831, DA 05-2834, Oct. 27, 2005 (Wireline Comp. Bur.) (Attachment 2)(referred to herein as the "2004 Case"). In the 2004 case, the Commission found that HISD's Year 2004 Application was for services eligible for support under the schools and libraries universal service support mechanism. The Commission thus held that SLD's denial of HISD's

No. of Copies rec'd 074
List A B C D E

Every Student, Every Day

471 Application 398831 ("Year 2004 Application") should be reversed, and the Commission remanded the application to USAC for further consideration consistent with its order. The issues in the present case are substantively identical to those of the 2004 Case. Thus, as explained further below, the Commission should reverse SLD's denial of HISD's Year 2005 Application in the same way that it reversed the SLD ruling in the 2004 Case.

Background

In February 2005, HISD submitted its Application, requesting continued E-rate support for an ongoing long-term managed services fiber optic project. The project had been supported by SLD funding for the years 2001 through 2003, and, as stated above, the Commission has determined that HISD's Year 2004 Application should have been approved as it included services eligible for support under the schools and libraries universal service support mechanism.

The Year 2005 Application described the project in exactly the same way as it had been described on applications for the years 2001 through 2004. Because the Year 2005 Application involves the continuation of the project found by the Commission in its October 27, 2005 decision to consist of services eligible for support under the schools and libraries universal service support mechanism, SLD's decision on HISD's Year 2005 Application should be reversed.

Specifically, the project involves the provision of internet services for at-risk students in Houston area schools. The services are being provided over by a District Wide Area Fiber Network operated for HISD by Phonoscope, LTD ("Phonoscope"). Phonoscope has provided the managed services via "lit fiber" under a single contract signed with HISD in 2000. The contract has been extended to serve additional areas in subsequent years. HISD had never been denied E-Rate support for the services until Year 2004. In addition, the program was found to be operating properly within USAC guidelines in a USAC audit in 2004.¹

SLD's initial Funding Commitment Decision Letter (Attachment 3) for the denial of the nine FRNs referenced above, dated July 7, 2005, states: "30% or more of this FRN includes a request for Dark Fiber which is an ineligible product(s)/service(s) based on program rules." As described in the application and subsequent correspondence, nothing in the request and none of the services ever have involved provision of dark fiber and no such dark fiber is part of the Year 2005 Application. Because the SLD explanation inaccurately described the HISD request and was inconsistent with prior SLD funding decisions, on August 31, 2005, HISD sought to have the mistake corrected by an appeal to the SLD (Attachment 4).

¹ In late 2004, KPMG Consulting, under contract to USAC, concluded a two-week long audit of HISD's E-Rate Year 2002 participation with a report reflecting no material findings. Such a report demonstrates HISD's commitment to abide by the E-Rate program rules and recognition of the importance of this program to its at-risk student population. The SLD funding helps to assure students equal access to telecommunications and the Internet and furthers the effort to close the digital divide.

On October 18, 2005, the SLD denied HISD's appeal (Attachment 5), stating that HISD's application "included costs for the following ineligible services: Dark Fiber and Private Network," and that HISD "did not demonstrate in [its] appeal that [its] request included less than 30% for ineligible products and services." The wording of the October 18 Letter from the SLD varied only slightly from the initial denial and provided no further explanation of the reason for the denial or the rejection of the appeal.

This matter does not involve a difference of opinion about whether a particular service should be funded. Nor does it involve close questions of the nature of a given service. This is an appeal to correct an erroneous decision based on a complete mischaracterization of the HISD initial request. HISD requested funding for services that are permitted services and that the SLD has funded for HISD in the past. The SLD has treated the request as a request for something that was never requested: HISD has never requested funding for, nor has it ever acquired, dark fiber or a private network.

Because the SLD is wholly inaccurate in its characterization of the HISD request; because HISD applied for services that are eligible for funding by the SLD and did not request funding for dark fiber or a private network in its Year 2005 Application, nor on any Form 471 in any previous year; and because the Commission has rejected the reasoning behind the SLD's denial in the context of HISD's Year 2004 Application, the SLD denial of HISD's Year 2005 Application is in error and must be reversed.

Appeal

The Commission Has Ruled that the Services for which HISD Requests Funding are not Dark Fiber or a Private Network

The SLD denied HISD's Year 2004 Application for the same reasons it has denied the Year 2005 Application – that HISD requested funding for services that are ineligible for support under the E-Rate program. After HISD's appeal to the SLD of its Year 2004 Application decision was denied, HISD appealed the SLD decision to the Commission. The Commission acted on HISD's request for review on October 27, 2005.² The Commission found that the SLD had erred in denying HISD's Year 2004 Application, and that HISD's funding request was for services that were in fact eligible for support under the program.

Specifically, the Commission determined, based on the lease agreement between HISD and Phonoscope and related addendums and supporting documentation, that the fiber optic wide area network (WAN) for which HISD had requested funding is not a dark fiber network. Furthermore, the Commission decided that that WAN did not constitute a private network, as it was provided over a common carrier backbone.³

² *In the Matter of Request for Review of the Decision of the Universal Service Administrator by Houston Independent School District*, File No. SLD-398831, DA 05-2834, Oct. 27, 2005 (Wireline Comp. Bur.) (Attachment 2).

³ *Id.* at ¶ 6.

The Commission remanded HISD's Year 2004 Application to the SLD; the SLD has not yet acted on the remand. HISD's Year 2005 Application reflects a request for funding for exactly the same services as were the subject of the Year 2004 Application. No changes have occurred in the services for which funding is being requested nor in the service agreement between HISD and Phonoscope. Thus, the same reasoning used by the Commission to grant HISD's request for review of the Year 2004 Application should apply in the analysis of the Year 2005 Application. Therefore, HISD requests that the Commission find that the SLD erred in rejecting HISD's request for funding and that it remand HISD's Request for Review to USAC for further action consistent with its decision.

The Application is a Continuation of a Telecommunications Project Already Funded by SLD

HISD's Application, additional documentation and Letter of Appeal explain that HISD's long-term project is ongoing and that the requested funding is intended to cover (1) the third-year amortized construction costs for installation of Phonoscope fiber and modulating equipment for each of 143 HISD school sites (FRN 1224884), (2) the second-year amortized construction costs for installation of Phonoscope fiber and modulating equipment for each of 32 HISD school sites (FRN 1224895), (3) the costs of installation of Phonoscope fiber and modulating equipment for each of 17 HISD school sites (FRNs 1224875 and 1224906), and (4) the annual management fees associated with operating the network (FRNs 1224877, 1224882, 1224886, 1224900, and 1224914). The Application also explains, in Block 2, that the telecommunications services provided to 208,000 area students via this request will increase significantly. The fact that the telecommunications services provided to at-risk students in the Houston area will increase as a result of this request, along with the fact that fiber and system management services will be provided by Phonoscope as part of the plan outlined in HISD's Application, demonstrate that services will be provided by fiber that Phonoscope provides. Therefore, such fiber necessarily must be "lit."

The Service Funding Request is Consistent with Earlier Requests Funded by SLD

Additionally, the Application, at Block 5, Question #15b, states that the contract upon which the request is based is contract number "00-11-6." Following a letter request from SLD to HISD on May 17, 2005 ("the May 17 Letter") (Attachment 6), this contract and the relevant addendums were provided to SLD on May 24, 2005 (Attachment 7). This contract for HISD's District Wide Area Fiber Optic Network project was entered into by HISD and Phonoscope in 2000. The services provided under that contract were the subject of previous E-Rate requests submitted by HISD and granted by the SLD in 2001, 2002, and 2003, and approved by the Commission for Year 2004. HISD's Application refers to the third- and second-year amortization periods for certain construction costs included in the request, thus clearly indicating that HISD's request is part of an ongoing SLD-funded long-term project. The SLD could have easily associated HISD's past requests regarding this project with its current request. Had the SLD done so, it would have found that this project does in fact involve "lit" fiber.

HISD Submissions in Response to SLD Review Inquiries Establish the Telecommunications Nature of the Project and Show that Dark Fiber is Not Involved

HISD's May 24, 2005 response (Attachment 7) to SLD's May 17 Letter clearly shows that the HISD funding request relates to the telecommunications services provided by Phonoscope and funded by the SLD. The May 17 Letter asked for a copy of the Vendor Quotes substantiating each FRN and a copy of the applicable contract and any applicable contract extensions. HISD's May 24, 2005 written response included a copy of its original contract with Phonoscope, along with the relevant addendums and vendor quotes related to the FRNs (Attachment 7). The addendums and vendor quotes amply illustrate that the funding request relates to managed services and other telecommunications services. Additionally, HISD explained that FRNs 1224875, 1224877, 1224882, 1224884, 1224886, 1224895, and 1224900 have the same contract number as Year 2004 FRNs 1135973, 1136206, 1136285, 1136449, 1136548, and 1136899, and that for the Year 2005 FRNs, the contract expiration date had changed from 6/30/2005 to 6/30/2006.⁴ Because the same contract provided the basis for both the Year 2005 Application and the funding request for Year 2004, and the Commission has found that the Year 2004 Application was for services eligible for support under the schools and libraries universal service support mechanism, the Year 2005 Application should be approved.

Nothing in the HISD materials suggests that the contract or the vendor work relates in any way to dark fiber. Quite the contrary, the use of terms such as "provision," and "manage" in the addendums to the contract are commonly understood to relate to active, not dark, fibers. "Provisioning" is a telephone industry term referring to the act of supplying telecommunications service to a user, including all associated transmission, wiring, and equipment. See Newton's Telecom Dictionary, 20th Edition, CMP Books, 2004. Moreover, the SLD should draw some inference about the nature of the service from the quoted costs for managing the provisioned circuits. The annual management fee, as well as the other costs in the funding request should be recognized by telecommunications experts such as the SLD as being wholly inconsistent with the costs for lease of bare, dark fiber.

Other information from the vendor quotes provided in response to the May 17 Letter also shows that the funding request relates to telecommunications services instead of dark fiber. The vendor quote for FRN 1224884 shows that the quote is for the third-year amortization construction cost of a one (1) Gbe Ethernet connection to each of the one hundred forty-three (143) HISD sites listed on the quote. Not only does such language clearly identify telecommunications services being provided, but the table of services and costs specifically refers to "Year Three Construction Costs" in reference to the continued amortization of the costs previously approved by the SLD in Year 2003, and by the Commission in HISD's Request for Review of its Year 2004 Application. Similarly, the vendor quote for FRN 1224877 refers to an "annual management service fee," which is wholly inconsistent with a lease of dark fiber.

⁴ HISD also explained that the 15-digit Form 470 that established the bidding for the contract extension is 651570000501547.

HISD Did Not Provide Different or Conflicting Information in its Appeal to the SLD

Because the SLD failed to consider all relevant information previously provided to it, HISD attempted to clarify its Application in its appeal to the SLD in August 2005. This information did not conflict with the information previously provided, as SLD's October 18 Letter claims, but only provided further details to aid the SLD in its assessment.

Use of Gigabit Interface Connectors (GBICs) Does Not Create Inference of Dark Fiber Lease or Private Network

It is unclear from the SLD correspondence whether the special interface cards called GBICs that are used in the Phonoscope-provided system or the GBICs deployed within the HISD local area networks are important to the SLD belief that Phonoscope is providing dark fiber. If so, SLD has erred by treating the presence of either set of GBICs as a factor in its decision. GBICs are essential electronic modulating devices in every gigabit Ethernet system. While GBICs are used by lessors of dark fiber, the fact that they are used does not mean that dark fiber is leased. The GBICs used in the Phonoscope system are installed along with other Phonoscope electronic modulating equipment in Phonoscope cabinets where Phonoscope utilizes the GBICs to help maintain its fiber network and deliver signals for HISD. Phonoscope also maintains GBICs at each site as an uplink to the Phonoscope network.

The Phonoscope uplink GBIC at each site is the first inline piece of equipment (modulating electronics) for the final handoff link between the provider and HISD. The fiber providing Internet connectivity to each site is useless to HISD without the Phonoscope GBIC: HISD cannot obtain the telecommunications services if it attempts to bypass the provider's GBIC and connect its LAN equipment directly to the uplink fiber. Moreover, the GBICs in HISD local switches are not modulating equipment; they exist solely to physically accept the "lit fiber" hand-off from Phonoscope. As the terminal point for the signal, the HISD sites need to provide their local switches with an appropriate number of GBICs to accept the final handoff links from Phonoscope. Depending on bandwidth at each site (1-3 Gbps), there may need to be 1-3 GBICs in the local HISD switch to accept the lit fiber from the corresponding Phonoscope GBIC cards.

Thus, the managed fiber network provided by Phonoscope is neither dark fiber nor a private network. Rather, it is an integrated system including wiring, equipment, services and transmission used to provide needed telecommunications services to at-risk students.⁵

Conclusion

Therefore, HISD respectfully asks the Commission to reverse the SLD's decision not to fund the nine FRNs represented in this appeal. The funding in question represents the fifth year that

⁵ In its October 27, 2005 decision, the Commission found that the managed fiber network provided by Phonoscope to HISD is "not a private network because it is provided over a common carrier Metropolitan backbone." *In the Matter of Request for Review of the Decision of the Universal Service Administrator by Houston Independent School District*, File No. SLD-398831, DA 05-2834, Oct. 27, 2005, at ¶6 (Wireline Comp. Bur.).

HISD has requested E-Rate support for similar work related to its long-term project. Funding was awarded in Years 2001, 2002 and 2003, and for 2004 as a result of the 2004 Case. HISD's Year 2005 Application does not request funding for Dark Fiber or a Private Network, as found by the SLD, but instead requests funding to support its ongoing long-term District Wide Area Fiber Optic Network project.
